Protecting What Matters Most

McAfee protects millions of people around the world and frees them to experience more by making it simpler to be safe online, however and wherever they connect. Our smart technology helps people effortlessly navigate risks, make smarter decisions, and take charge of their personal information. McAfee is designed to respond to the individual needs of everyone in the family, proactively keeping them protected and providing simple steps to improve their online safety — no matter their age, their interests, or how much they know about technology.

Our technology can be purchased online and from retail stores or through cell phone carriers, internet service providers (ISPs), device makers, or other McAfee partners. We combine a proven, global track record with a commitment to investing in the future of online protection, keeping our customers safe against new and evolving threats.
